
Araknis 320 Switch Firmware Release Notes

Version 1.0.17

Release Date: 2025/03/07

Bug Fixes

- Multicast fixes for multi-switch MoIP and Ryff installations.
- Fixed an issue where multicast groups didn't register properly if the switch was flooded upon boot.
- Fixed a bug where UI/API tokens could reach a limit and prevent users from logging in.
- Fixed an issue where 220/320 switches wouldn't link with AN-310-RT-4L2W via SFP.

Features & Improvements

- Added a search option to tables in the web UI.
- Improved some UI elements for ease of use on tablets.

Version 1.0.11

Release Date: 2024/03/06

This is the initial firmware release.
