Control4® Smart Lighting Display

Control4® Smart Lighting Display
C4-LD120V (120V Decora)
C4-LD240V (240V Decora)
C4-LDS240V (240V Square)

Elegantly showcase Control4® Smart Lighting and the all-new Square Wireless Lighting with this stunning showroom and portable display. This display fixture showcases an assortment of Smart Lighting keypads and dimmers in a variety of faceplate and button color combinations—all with sleek backlit engravings. Once programmed, the Smart Lighting Display is fully functional, with independent control of four dimmable LED lighting loads.

Available for the Smart Lighting Display is a sample project file for you to load on to the EA-1 Entertainment and Automation Controller. This sample project file features Smart Lighting "scenes" to simulate when lighting is tied to other systems—such as music, entertainment, shades, temperature, security, and more—and how you can bring elegance, ambiance, convenience, and energy efficiency to the whole home.

The Smart Lighting Display can show how a "Cook" scene starts a playlist and brings the kitchen lights up while dinner is prepared. A "Wake Up" button softly plays a morning playlist and gradually brings the lights in the room up. A "Vacation" button locks the doors and garage doors and activates a Mockupancy™ driver to make the home appear occupied even when vacant.

Use the Control4 Smart Lighting Display to demonstrate how Smart Lighting not only brightens a home, but also provides convenience and energy efficiency. It's not just smart, it's brilliant.

- Elegant way to demonstrate Control4 Wireless Lighting
- Sleek and sophisticated design, consistent with the Control4 Dealer Demo Kit
- Sample project file with Smart Lighting "scenes" available for download
- Multiple LED backlight and engraving color capabilities
- Various keycap sizes and configurations
- Variety of button and faceplate combinations (12 stylish colors and finishes available)
- Available in Decora (120V and 240V) and Square (240V) formats
- Engraved keycaps are in English only
- Some setup required
