

Control4® Media Player

Control4® Media Player C4-MP2-E

Control4 has long provided a simple way to access the discs in your DVD and Blu-ray changers for easy navigation and playback. The Control4 Media Player now allows you to access a wide variety of digital video file formats, including home movies, stored on NAS drives from any TV in your home. The easy-to-use interface makes this the ideal solution for streaming centrally stored digital video content throughout any home.

It's part of the Control4 vision. We bring the benefits of a truly connected digital home to more people with solutions that are affordable, easy-to-use and designed for any home or lifestyle.

- Easy-to-Use – Play back your digital video files directly to your TV.
- Low Profile – Add this compact player behind your TV or in another discrete location so you can minimize your electronic clutter.
- Incredible Value – Enjoy excellent video quality and independent room control throughout your home at an affordable price.
- Modular Solution – Start small with one-room control and easily add more video zones when it makes sense for you.
- Hassle-Free Entertainment – Access your collection of DVD discs, Blu-ray discs and video files from a single, intuitive interface.

Control4™
